

Accessibility Statement

It is our goal to ensure that this website is working in accordance with Section 508 guidelines. We included recommendations and techniques provided by The [Web Accessibility Initiative](#) (WAI) of the World Wide Web Consortium (W3C) as much as possible.

We serve a very important community of educators and parents involved in the field of special education. In an effort to provide public access to valuable information, we post material on our website that was authored and shared by teachers and other volunteers. This includes videos, presentations, and documentation in various formats. While we try to have all these assets in an accessible format, this website contains legacy material that we might not be able to provide in a format that can be used by all assistive technologies.

If you have problems accessing or interacting with any of the information on this website, please help us improve your experience. Contact: nanette.olivier@la.gov
